Premium Loading Dock Systems

Pit Style Levelers Hydraulic

“LHP” Series Hydraulic

LHP Series, 7' x 8', 35,000 CIR, CleanSweep™ Frame Shown.

LHP Series Standard Features Include...

- Simple Push Button Control
- Four Sided Box Construction
- Heavy Duty Lug Hinge Design
- Full Hydraulic Lip Activation
- Velocity Safety Stop
- Lockout/Tagout Maintenance Strut
- Night Locks/Cross Traffic Support
- Translucent Reservoir
- Low Maintenance Design
- Full Range Toe Guards
- Two (2) DB-13 Laminated Rubber Bumpers

Pit Style Levelers Hydraulic

Value,
Power and
Performance
In One
Design!

Structurally Superior By Design!

Poweramp has combined a cost effective hydraulic system with the manufacturing efficiency of our "Lug Hinge" deck design to produce price sensitive hydraulic leveler which rivals even air-powered technology.

The structure of the LHP incorporates "box construction" deck with a heavy duty lug hinge design. The deck is supported by 6" roll formed "C" channels (25K and 35K CIR) or 6" structural channels (40K CIR), fully gusseted and welded to the front and rear header. The sub-frame offers plenty of rear hinge support and the optional "CleanSweep"™ frame provides plenty of access for routine clean-out of the pit area.

Simple push button control provides safe and efficient operator control via NEMP 4, non-metallic push button station. An optional integrated control panel allows you to combine vehicle restraint, dock light, door buttons and related equipment into a single control cabinet.

Platform free-fall protection is accomplished with an externally mounter, non-adjustable velocity fuse designed to protect your personnel from uncontrolled free-fall of the ramp. The translucent oil-reservoir facilitates "at a glance" fluid level inspections.

The lip is extended using a fixed but fully yieldable lip cylinder. Hydraulic lip activation provides added assurance of reliable lip extension even where debris or adverse weather conditions are prevalent. The LHP is a cost effective alternative for those considering mechanical or air powered levelers.

LHP Series 6' x 8' 25,000 CIR shown.

LHP Series Common Options...

- 3-Phase Power
- CleanSweep™ Frame
- Integrated Control Systems
- Extended Lip Sizes (18" and 20")
- 3-Wheel Forktruck Protection (25K CIR)
- Weatherseal (Brush or Rubber)
- Laminated Bumpers
- Dock Alert Light Communication Package
- Vehicle Restraint System
- Dock Light

**The LHP Series Hydraulic Leveler
is available in a range of common sizes
and capacities and can be modified for
special applications.**
